**Re: WBA Development Council Charter**

Dear Mark:

On behalf of the Wisconsin Builders Association Development Council, I would like to submit a draft Charter consistent with §299.83(7e) of the Wisconsin Statutes. This document sets forth our organizations commitment to participate in the Green Tier program. We are very proud to have worked closely with DNR staff and other outside organizations in drafting this agreement.

My understanding is that the next step in the process is for the Department to send out a formal notice that sets forth the schedule for public comment and a public hearing. Please contact me if you have any questions or need additional information.

Sincerely,

John A. Kisiel  
Director of the Development Council  
Wisconsin Builders Association
